COLLEGE BULLETIN

FALL, 1964

Shoemaker Galleries

Opened October 31

In Carnegie Hall;

College Now Has

An Art Center.

Classical Painter,

Lawrence Zox,

Artist-in-Residence

Dedication of the Colonel Henry W. Shoemaker Galleries of Carnegie Hall October 31 marked the opening of Juniata College's new art center.

Redesigned under the direction of Steven A. Barbash, assistant professor of art, the former library now contains two large rooms for exhibits of art, an art studio and classroom, and a tastefully re-decorated central lobby.

In addition, the building houses the Juniata College Museum in the upper level (open for visitors) where the Curator, Harold B. Brumbaugh, has assembled many historical relics, books, papers and photographs of the early days of the college.

With the opening of the galleries, the first major exhibit was a presentation of paintings by the artists of the Kornblee Gallery, New York. Numerous other exhibits are planned this year.

Guest speaker for the opening was Michael Mazur, printmaker, painter and sculptor, from the faculty of Rhode Island School of Design. Professor Mazur, recent recipient of a Guggenheim fellowship, is represented in many museum collections and has had his work shown in the prin-

cipal galleries of New York and Boston.

Emphasizing the value and importance of the art center to the campus is the presence for eight weeks of an artist-in-residence, Lawrence Zox, a classical painter in the field of abstraction. In addition to painting in Carnegie Hall, Zox is giving art criticisms and conducting seminar discussions for students under the program of residencies which began last year.

Coming from Iowa, Zox studied at Drake and Oklahoma universities and at the Des Moines Art Center where he conducted a drawing workshop. He studied with George Groz, Louise Bouche and Will Barnett.

More recently Zox has been working and painting in New York City. Earlier this year he exhibited at the Kornblee Gallery and he has had shows in the Allen Stone Gallery and the American Gallery in New York during the past four years.

Zox has been described by *The New York Times* as "an electric newcomer" who adds a "jazzy, syncopated violence to the new abstraction in hard slashing diagonals, frame within frames, and color planes . . ."

Exhibit in the new Shoemaker Galleries

Artist-in-residence Lawrence Zox in Carnegie studio

Quigg Appointed

H. Gerald Quigg, Newark, Del., former campaign division director for the United Community Fund of Northern Delaware, was appointed associate director of development at the College beginning November 1.

Quigg, 27, a graduate of the University of Delaware, is assisting Harold B. Brumbaugh, vice-president for development, in carrying out Juniata's campaign for \$5,350,000.

One of his first assignments will be to organize and support a fund drive in the Juniata Valley to launch the second phase of the long-range program. More than \$3,000,000 has been raised since 1961.

After obtaining a B.A. degree in history from the University of Dela-

H. Gerald Quigg

ware in 1959, Quigg was employed by the Bell Telephone Company as trainee, staff assistant and service foreman from 1960 to 1962. He worked in Lancaster, Harrisburg and Hazleton.

Quigg joined the United Community Fund staff in Wilmington in 1962 and has been coordinating the fund-raising activities in employee, professional and individual solicitation in the \$285,000 program for 37 agencies.

As a commissioned officer (1st Lieutenant), Quigg has been a member of the 390th Civil Affairs Group, U. S. Army Reserve. He is also a member of the Delaware Chapter of Toastmasters International and the YMCA. He is married and has one son (Mark 2½).

New Spirit Of Growth Is Evident

Expansion and development of the College are obvious this autumn. Construction, remodeling, improvement and a substantial increase in endowment have been accomplished during the vital first phase of the \$5,350,000 development program undertaken in 1961.

The College is moving steadily toward its goal. New funds will be used to complete the \$2,700,000 Science Center—largest building project in the college's 89-year history—which will be ready for use early in 1966.

Renovation of Swigart Music Hall provided a fresh "new look" to the north campus. The exterior of the building was remodeled from roof to basement and the brick was painted white. In addition, the recital lounge on the main floor and the rehearsal room on the ground floor were improved and redecorated.

Funds for the \$35,000 remodeling were provided by The Swigart Foundation. The building was acquired in 1950 through a gift of the late W. Emmert Swigart, Huntingdon insurance executive, and is named in honor of his family. Use of the building as a music hall and its eventual remodeling were the ideas of the late Mr. Swigart.

High-level work at new Science Center

Swigart Music Hall adds "fresh new look" to campus

Executive Secretary Retires

Anne Groninger Smith, executive secretary to President Calvert N. Ellis retired Sept. 1 after serving 43 years under four presidents of Juniata College.

A native of Port Royal, Pa., where she lives with her husband, Paul, Mrs. Smith took a position in 1921 as secretary to Dr. I. Harvey Brumbaugh, then president of the College. She attended the business school of Juniata from 1919 to 1921.

Since then she has been secretary to former Pennsylvania Governor Martin G. Brumbaugh, while he was president from 1924-30; and executive secretary under Dr. C. C. Ellis, 1930-43, and Dr. Calvert Ellis from 1943.

In addition, Mrs. Smith served as assistant secretary of the board of trustees beginning in 1943 and prepared the minutes of all trustee meetings since 1924.

In 1956, Mrs. Smith was granted a six-month leave of absence "in recognition of many years of devoted service," but she has been on the job regularly in the president's office since then.

One of Mrs. Smith's most notable contributions was to assist the late Dr. C. C. Ellis in the preparation of the manuscript for his book *Juniata College—the History of Seventy Years, 1876-1946*.

In his foreword, Dr. Ellis gave special mention and recognition to Mrs. Smith whom he commended for "her efficient help in the investigation and checking of records and the assembling of materials."

Mrs. Smith also served for 15 years as registrar and treasurer of the Pennsylvania School of Alcohol Studies while it was meeting annually at Juniata in the summer months until 1961. She handled many of the details of summer conferences for years.

Completing 43 years of service to higher education, Mrs.

Anne Groninger Smith

Smith now feels she wants to be a "full-time homemaker." In addition, she says "we'll travel a little, but not too extensively."

Mrs. Connie G. Hurley, Petersburg, who has been faculty secretary during the past year, became secretary to President Ellis beginning Sept. 1.

FACULTY BRIEFS

Dr. Dewey J. Hoitenga, Jr., associate professor of philosophy, has written a moral-psychological analysis of the Negro problem in America based on a study of James Baldwin's writings. The article, "James Baldwin—Uprooted Sufferer," appeared in the September issue of *The Reformed Journal*.

A paper on *The Impact of the Woman's Temperance Movement Upon Pennsylvania, 1874-1896*, was read by Dr. Earl C. Kaylor, Jr., associate professor of religion, at the 33rd annual meeting of the Pennsylvania Historical Association at Wilkes-Barre, Pa., Oct. 9.

Dr. Edgar S. Kiracofe, professor emeritus of education, and Mrs. Kiracofe are now in Castaner, Puerto Rico, where both are enjoying a "new working assignment" for Brethren Service.

Another newlywed among the faculty is Dr. Young W. Kihl, assistant professor of political science, who was married to Mary Rambo '63 August 8 on Long Island. New

York University has reprinted a Dissertation Abstract on Dr. Kihl's "Study of Functionalism in International Organization: with special reference to the cases of the universal postal union and the international telecommunication union."

Among the comings and goings in late summer and early fall: Dr. Evelyn G. Guss, associate professor of classics, at the fourth International Congress of Classical Studies at the University of Pennsylvania . . .

Dr. Eva Hartzler, professor of chemistry, at the sixth International Bio-Chemical Congress in New York . . .

Dr. J. Peter Trexler, assistant professor of geology, at the American Conference on Coal Science at the Pennsylvania State University . . . Dr. Dale L. Wampler, assistant professor of chemistry, at the American Chemical Society meeting in Chicago . . . Dr. Esther M. Doyle, professor of English, was in New Mexico in August directing the Kaleidoscope Players in two plays during a four-week season.

A painting of the printing of the famous Sower Bible was described by the artist Barnard C. Taylor, Williamsport painter and designer, at its recent "unveiling" in L. A. Beeghly Library. Story on the painting and its background will appear in the Winter issue.

Cross-Cutting The Campus

Why Juniata?

The "small college" appeal and the "scholastic reputation" were given as the leading reasons why some 340 freshmen selected Juniata College this year.

Responding to a questionnaire that will be used to evaluate Juniata's admissions program, the students said also that they were "impressed by the quality of the faculty and students," that Juniata showed "superiority" in their chosen field, and that the "ideals of the college" appealed to them.

Biology was noted by a majority of the incoming freshmen as the curriculum in which they thought Juniata was most superior. Chemistry rated a close second.

Focus Series Opens

The College opened its new series of public performances and lectures—known as Focus—by presenting New York's highly esteemed Circle in the Square company in Eugene O'Neill's award-winning production "Desire Under the Elms" before an overflow audience of nearly 1,000 in Oller Hall October 21.

Students, faculty, alumni, townspeople were prompt in their praise of the efforts of the faculty committee on cultural events which has arranged the series of eight events—all at 8:15 p. m. in Oller Hall and all open to the public without charge.

The next event will be a lecture by the Hon. Alec Gorshel, a United Party member of South Africa's Parliament, on "South Africa; Crucible of the Races" Tuesday, Nov. 17.

Host to Administrators

The College was host to two groups of administrators from other colleges during the autumn. On September 28, admissions directors and counselors from 25 colleges in Pennsylvania, Maryland and New Jersey came for an invitational admissions conference. Richard E. Kimmey, director of admissions, and Robert A. Doyle, director of financial aid, were the hosts.

Dean Morley J. Mays, vice-president for academic affairs, was chairman and host to the eighth annual meeting of the Pennsylvania Academic Deans October 12. About 60 attended.

High Score in Sociology

Results of a nation-wide examination for introductory sociology students have revealed that Juniata students recorded the highest median score of the 40 participating colleges.

Duane F. Stroman, instructor in sociology, has been informed that 27 of the 56 Juniata students ranked in the highest 15 percent of the scores. Fifty of the students scored above the average. Juniata's median score in the test given to 2,396 students last February was 74 out of 100. Two other colleges posted 72, but others were below 70.

The examination was given by the U. S. Air Force to develop a profile for scoring the introductory examination.

Paul Pesthy

Pesthy in Olympics

Juniata College could claim representation in the Olympics in Tokyo this year.

Paul Pesthy, the Hungarian-born refugee who is the first to make two U. S. Olympic teams, was a freshman at Juniata in 1962. He is now enrolled at Rutgers University.

Pesthy gained a spot on the U. S. fencing team and then qualified for the modern pentathlon. He is a former NCAA epee fencing champion and superior in swimming, riding and pistol-shooting. The U. S. pentathlon team won a silver medal in Tokyo.

At Juniata in the fall of 1961, Pesthy won his letter running on the Indians' undefeated cross-country team although he was not one of the top five men. Cross-country is the fifth event in the five-sport competition known as the modern pentathlon.

Sports Chatter

Coach Ralph Harden has seven lettermen on a basketball squad which has high hopes of improving on last year's 6-11 record. Included are Leroy Mock, Chuck Robuck, Bob Pascale, Jack Haskell, Don Engle, Bert Goodrich and Ted Baldwin . . . Among the most promising freshmen is Clair Kenyon, Huntingdon's outstanding backcourt star and best in the Mountain League, whose mother is secretary to Dean of Men Paul Heberling . . . Basketball season opens at Lock Haven Dec. 2 and will include a holiday tournament at Bridgewater College, Va., Jan. 1-2 . . . Coach Bill Berrier has some 25 candidates for wrestling and also is looking for an improved showing. The matmen open at Gettysburg Dec. 5.

One of the happy traditions—Mountain Day—continues at Juniata College. This year students "took to the hills" at Colerain, near Spruce Creek.

Enrollment Is 914

The College's Fall term enrollment has reached an all-time high of 914—a six percent increase over last year's 862. The registration summary reported 505 men and 409 women in the total enrollment. All but 30 are degree-candidate students.

Another record high of 830 resident students also has been reported. Of this total there are 453 men and 377 women.

In a breakdown by classes, the seniors have 152, juniors 153, sophomores 253 and freshmen 326 of the 884 degree candidates.

Achievement Among Alumni

A Juniata graduate, **F. David Marschka '48** is one of a team of nine engineers at the Lancaster RCA plant which designed and developed the special "eyes" in the six cameras which took the historic pictures of the moon.

Marschka also helped to develop the picture tube of Tiros I, the U. S. weather satellite, in 1960. He is engineer leader, advanced development, vidicon tubes at the Lancaster plant of RCA.

It was the special vidicon tube which Marschka and his team developed for the Ranger 7 spacecraft which were the "eyes" of the camera. The special vidicon is one inch in diameter and five inches long. Engineers pooled their knowledge and skill to make the tubes which transmitted about 4,000 snapshots of the moon's surface before the craft crash-landed at a speed of 6,000 mph.

Heart of the vidicon tube system is its "slow scan" ability. This enables the camera tube to make one television picture every five seconds. Tubes in TV home receivers display about 30 pictures per second.

Marschka worked on advanced development of the tube which took more than three years to complete. Five others worked out the tube de-

sign and its characteristics; two more were concerned with the tube's photo conductor, a "very sensitive" component that is similar to the image-making strip on a roll of film.

RCA developed the cameras for the Jet Propulsion Laboratory of the California Institute of Technology, which is the prime contractor for the Ranger program.

Space scientists have lauded the successful project and RCA officials stated that the television pictures made with the special camera tubes will "significantly advance the new science of electronic astronomy."

Young Men of Note

Four graduates of Juniata have been selected for inclusion in the 1965 edition of Outstanding Young Men of America, an annual biographical compilation of 10,000 sponsored by the U. S. Junior Chamber of Commerce. Those nominated are: **Henry B. Gibbel '57**, Lititz insurance executive; **James D. Hunt '56**, city editor of *The Daily News*, Huntingdon; **W. Clark McNeal, Jr. '54**, manager of the Arrow Company plant, Huntingdon; and **Klare S. Sunderland '56**, general manager of Sausman Chevrolet, Lemoyne.

Dr. Miller

Dr. West

Dr. Thomas R. Miller '36, Chappaqua, N. Y., has been advanced to executive vice-president of the Chemicals Division, Union Carbide Corporation. Dr. Miller joined the corporation in 1940 and has been a vice-president of the Chemicals Division since 1960.

The Pennsylvania Medical Society has elected **Dr. William B. West '26** as president-elect to become president in 1965. Dr. West, chief of staff of J. C. Blair Memorial Hospital and former College physician, is a trustee and counselor of the state society and a former president of the Huntingdon County Medical Society.

Newly appointed chairman of the Science Department at Shippensburg State College is **Dr. William Peightel '49**, professor of

Dr. Peightel

Dr. Meyers

biology and member of the faculty since 1956. Dr. Peightel formerly taught at Hopewell Township and Altoona Senior High School.

One of Juniata College's best known medical missionaries, **Dr. Wayne M. Meyers '47**, is now in Switzerland preparing for an assignment in the Republic of Congo beginning March 1, 1965. Dr. and Mrs. Meyers and their family of four will be going as appointees of the American Leprosy Missions and will be responsible for the development of the Kimpese leprosy program about 150 miles southwest of Leopoldville.

The Rev. Philip E. Norris '53, pastor of University Park Church of the Brethren, Hyattsville, Md., has been elected president of the Ministerial Association of Greater

Dr. H. Stover Kulp

H. Stover Kulp Dies

Memorial services were held at the Coventry Church near Pottstown for **Dr. H. Stover Kulp '18**, pioneer missionary statesman of the Church of the Brethren, who died in Harrisburg October 12.

Dr. Kulp was one of the two founders of the Church of the Brethren mission work in Nigeria, begun in 1922. He gave vigorous leadership to the program there for 41 years, serving as executive field secretary during most of his term. He retired in this country early this year.

Dr. Kulp saw the work he started grow to encompass some 30 congregations with 10,000 members.

Rev. Norris

Mr. Hiltner

Washington. He is also chaplain to the Brethren Students at the University of Maryland.

Richard H. Hiltner '60 has been named manager of packaging sales in the New York metropolitan area for the Bondware Division of Continental Can Company.

Ph.D. degree in nuclear chemistry has been awarded by Harvard University to **Joseph Noggle '60**. He has been appointed by Harvard chemistry department as a Research Fellow for another year. Wife **Carol (Innis) ex'61** is employed at the Smithsonian Astrophysical Observatory in Cambridge, Mass., as an astrometric computer (tracking satellites).

Noel Plummer '58 has been appointed

(Continued on Page 6)

The alumni board of strategy met recently at the campus. This is the executive committee of the Juniata College Alumni Association. From left: Harold B. Brumbaugh '33, vice-president for development; W. Clay Burkholder '35, Milroy, immediate past president; Charles C. Ellis '40, Villanova, president; William B. Martin '59, director of alumni relations; Thelma E. Morse '29, Bedford; Dr. Chester McTavish '31, West Chester; Dr. John M. Carper '48, Lancaster; Henry H. Gibbel '57, Lititz.
